# THE ISSUES CHOSEN

Candidates were asked their positions on a series of issues that New Yorkers are deeply concerned about today:

1. Inflation/The Economy, 2. Illegal Immigration, 3. Crime

Candidates were then asked a series of yes or no questions on select issues that affect New York City the most:

1. Congestion Pricing: A proposed toll that drivers would pay to enter Lower Manhattan. Currently on an indefinite pause.

2. Reinstate & Compensate: Proposed legislation that would restore workers, who were fired for refusing the covid vaccine, with possibility of backpay for time lost.

3. E-Bike Regulation: Proposed sets of bills that would require licensure and registration of e-bikes and mopeds that have caused havoc on our streets.

4. Good Cause Eviction: A current law that strengthens tenant protections while weakening private property rights.

5. The "City of Yes": A proposed residential re-zoning within NYC which will attempt to increase housing & economic development.

# JOHN L. BENNETT

ASSEMBLY DISTRICT 44  
REPUBLICAN | CONSERVATIVE

## TOP THREE ISSUES

1. Support for Police & Law Enforcement
2. Reducing Unwanted Pregnancies & Finding Alternative Solutions
3. Fighting Congestion Pricing

## CANDIDATE STATEMENT

"I have been blessed to be a life long resident of Park Slope and Windsor Terrace. A few years ago, I retired after over 40 years in broadcasting. I love the neighborhood. It has been a great place for my wife and I to raise our two girls and now our granddaughters. Lately I have been troubled by what seems like an outright assault on traditional values and common sense. As a broadcast engineer, I would have to troubleshoot problems in complicated systems. When I found something broken, I would fix it. If it couldn't be fixed it had to be replaced. Things are broken in Albany. This has prompted me to run in this election for the 44th Assembly seat."

## INFLATION/ECONOMY

"The democratic party always seems to lean towards socialism as a way of fixing the economy. These policies always result in inflation and a poor economy. We need policies that encourage entrepreneurs and businesses to create products and services that are needed. We need to cut government red tape and regulation. We also need to stop the growth of one of the largest causes of inflation, government spending."

## ILLEGAL IMMIGRATION

"The concept of a sanctuary city needs to be made illegal in New York State. Having New York City as a sanctuary city has cost its citizens billions of dollars and resulted in an increase in crime."

## CRIME

"We need to support Law Enforcement. This would include proper funding and repeal of bail reform. Recently we have seen Police and civilians beaten and badly injured. We then see these perpetrators released without bail. I believe there is no question how moronic and nonsensical bail reform has been."

## MEET JOHN

"I have been blessed to be a life long resident of Park Slope and Windsor Terrace. Back in 1976, I was married to my high school sweetheart and she joined me in Windsor Terrace. Together, she and I raised our two daughters here.

Now we are watching our granddaughters grow up in this very neighborhood. A few years ago, I retired after over 40 years in broadcasting. I continue using my skills by helping produce videos for the church we attend in Gowanus."

# MICHAEL NOVAKHOV

ASSEMBLY DISTRICT 45  
REPUBLICAN | CONSERVATIVE

## TOP THREE ISSUES

1. Public Safety
2. Combating Anti-Semitism
3. Small Business & Job Creation

## CANDIDATE STATEMENT

"Our community believed in Michael and his vision and elected him to serve in the New York State Assembly - successfully defeating an over 20 year incumbent. But our work is far from over. New York still faces high crime, rising inflation, and the highest cost of housing in the nation. Now more than ever we need Michael in Albany to fight for our community and ensure we always have a seat at the table."

## INFLATION/ECONOMY

"I believe that responsible fiscal management is crucial to addressing the issues we face. We need to reign in unnecessary spending, prioritize essential services, and ensure that taxpayer dollars are used efficiently and effectively. This means opposing costly initiatives that do not provide clear benefits to New Yorkers and advocating for policies that promote economic growth without burdening taxpayers with excessive debt."

## ILLEGAL IMMIGRATION

"We need to enforce our immigration laws, secure our borders, and put an end to policies that encourage illegal immigration. Sanctuary City laws must be repealed to allow local law enforcement to cooperate fully with federal authorities. Additionally, the state and city should not be spending taxpayer dollars to provide benefits and services to those who are in the country illegally."

## CRIME

"Rising crime rates in our state and the impact that recent policies, like bail reform, have had on public safety have decimated the quality of life of our City and State and have made regular New Yorkers fearful to walk our streets. I stand in support of, and have co-sponsored legislation, which aims to roll back disastrous bail reform and giving judges the discretion they need to keep dangerous individuals behind bars. We must also hold our District Attorneys accountable and ensure they are doing their job to protect our communities."

## MEET MICHAEL

"Michael lives in Manhattan Beach and has a deep connection to his community. Since 2003, Michael has worked within the media business in New York. In 2019, nearly 20 years after he began his career, his dream came true when Michael cofounded and opened Freedom FM. In the three years of broadcasting from New York's Freedom Tower, Freedom FM has become the most listened to, loved, and influential Russian-language radio station across New York."

## TOP THREE ISSUES

1. Change the Pro-Criminal Bail Law
2. Expand Specialized Schools & Preserve SHSAT
3. Stop All Marijuana Stores in Residential Communities

## CANDIDATE STATEMENT

"New York City is in crisis. We live in a time when our political leaders push socialist ideological policies that endanger all New Yorkers. Crime is out of control. Socialist policies increase our rents and the homeless on the subways. Gifted and specialized programs are being cut. Our children are exposed to the smell of marijuana. We must permanently end Congestion Pricing and ban biological men in women's sports. I pledge to do everything possible to make NYC safe and improve the quality of life in our community. I am blessed to have escaped socialism in the former Soviet Union and will do all I can to stop socialism in NY's govt."

## INFLATION/ECONOMY

"The last time I voted for a state budget we used roughly \$80 billion less taxpayer money. State spending has increased dramatically every year but middle-class families and small businesses across Brooklyn are still struggling. One thing is clear – one-party rule has produced nothing but dysfunction, secrecy and a very late state budget – all of which are failures of leadership."

## ILLEGAL IMMIGRATION

"State Democrats have turned the American Dream into a nightmare. It is clear now, more than ever, that sanctuary cities serve only to create more victims and protect dangerous criminals. We must return to the common sense immigration policies of the past to keep New Yorkers safe."

## CRIME

"Woke criminal justice policies are turning New York in Gotham City. Policies like the Clean Slate Act, Raise the Age, & cashless bail created this violent environment. If we don't stand up for law and order, no one will. It's time we start giving law enforcement the protection and resources they deserve."

"Born in Moscow, Alec emigrated from the former Soviet Union in search of a better life in America, working as a stock person in the East Village before becoming a manager. After many years in the private sector, Alec would take his commitment to public service, entering the Assembly in 2006 and returning again in 2022. REPUBLICAN | CONSERVATIVE

## TOP THREE ISSUES

1. Public Safety & Crime Prevention
2. Cutting Government Bureaucracy & Streamlining Red Tape
3. Support Educational Meritocracy, School Choice, & Charter Schools

## CANDIDATE STATEMENT

"As a current elected official, I truly believe that my job is to serve not only those that voted for me, but all of my constituents. Partisan politics is slowly attempting to tear apart the fabric of our great country. However, this does not need to be the case. Those on both sides of the political spectrum must understand that finding common ground is an imperative and necessary step in maintaining a successful government that looks to deliver on the community's needs. Every American has the right to achieve that same American dream that my parents fought so hard to achieve over 60 years ago. We must all strive to ensure that this future remains a possibility for all New Yorkers and especially for our children."

## INFLATION/ECONOMY

"Prices have reached all-time highs in every sector, and the current anti-free market rhetoric being pushed is providing no solutions. We must unite and advocate for business-friendly policies so that every single New Yorker can afford the current cost of living. Cutting taxes is the first step in this process. Businesses must have the ability to operate freely and those who look to exploit them must be brought to justice."

## ILLEGAL IMMIGRATION

"We are a nation of immigrants, founded by a people looking to pursue their dreams. As a son of two proud and successful Chinese immigrants, this topic carries a great deal of significance for me. When my parents finally arrived in the U.S., after a long and arduous journey, they were met with a daunting immigrant intake legal process. I believe in the importance of secure borders and a fair, orderly immigration process. This means enforcing existing laws, addressing the root causes of migration, and ensuring that our communities have the resources they need to support all residents as well as helping others."

## CRIME

"What was once the safest big city in America, is no more. Our streets are crime ridden, drugs are pouring in, and criminals don't pay the price. With all the reckless policies passed such as bail reform, it should be no shocker that crime is on the rise in NYC. We must protect and support our police and provide them with the necessary resources to efficiently handle the influx of migrants coming illegally from all over the world. We must prevent the opening of community jails and reinstate Rikers Island. Only then can we see a brighter future for our City."

"Growing up in a small apartment on the Lower East Side, I saw first hand the struggles that many immigrant households faced. I am a proud product of New York's public education system. Through this, I decided that the most fulfilling life would be that of serving those who needed help the most.

After attending college I made the decision to defend my nation by joining the Naval Reserves. The 24 years I dedicated to this country set the tone for who I am today. Although retiring from the Navy over 5 years ago, I chose to answer the call once again by volunteering during the height of covid, to administer testing for all those who depended on it. I've fought for my peers my entire adult life and now as a state legislature, I will continue this fulfilling mission into my post-Military years."

# BRETT WYNKOOP

ASSEMBLY DISTRICT 52  
CONSERVATIVE

## TOP THREE ISSUES

1. Bail & Criminal Justice Reform
2. No Public Services for Illegal Aliens
3. Recall Elections

## CANDIDATE STATEMENT

"I intend to take all steps possible in the assembly to make Brooklyn and New York great again. We need to make NY business friendly so we have good jobs. We need to drive down crime by making sure that criminals actually do time for the crime. I will introduce bills that are tough on criminals. I will do all in my power to repeal congestion pricing. I will introduce common sense legislation about guns, where the criminals are punished, but law abiding citizens have the tools to defend themselves and their families. On day one I will introduce a bill to repeal the NY SAFE act, which has only made our state less safe."

## INFLATION/ECONOMY

"We need less government involvement in regulating the economy. The free market needs to set prices and wages. Government regulations on the energy industry as well as runaway government spending has driven inflation and it needs to stop. We need to lower taxes and reduce regulations on businesses to become business friendly, which will stop the mass business exodus from NY. Businesses do not pay taxes, their customers do. If the legislature raises taxes on a business it simply passes the increased cost to the customer."

## ILLEGAL IMMIGRATION

"The Federal Government refusing to enforce national law is what has brought millions of military age male illegal aliens into the country. Declaring NY a sanctuary state has caused it to become a magnet for the criminals from other nations. All so called sanctuary city and state laws and regulations in NY must be repealed. New York must start to cooperate with Immigration and Customs Enforcement (ICE) and hand over illegal aliens arrested for breaking NY law to ICE. NY also has to criminalize crossing the northern border at places that are not official points of entry maned by Federal Customs and Border Patrol personnel."

## CRIME

"Since the governor has chosen to not reign in rogue district attorneys by dismissing them for not doing their job the people need to reclaim that power. Recall elections should be available to remove a public official that is not doing his duty. So called cashless bail needs to be repealed. Crime statistics and failure to appear instances have shown us this was a bad idea. Further judges need more latitude in setting pre-trial release conditions. NY gives judges far fewer choices in pre-trial release conditions than other states."

"I come from a family that taught me that being a patriot was a good thing. I am the son of a Navy Chief Petty Officer and a Nurse. I graduated from the United States Merchant Marine Academy in 1981 and served in the Navy Reserve until 1993 when I was honorably discharged with the rank of Lt. My oath to support and defend the Constitution of the United States of America never expires. I am running for office because it is the best way I can at this time defend the Constitution from our domestic enemies and prevent this state and our country from becoming another Cuba, or USSR. I have owned 3 small businesses in NY state. I know the pain our government puts business owners through. Two of my three businesses were technology based, the third was a maritime operation. I am currently working as a captain of passenger and tug boats on the Hudson river. ## TOP THREE ISSUES

1. Immigrants

## CANDIDATE STATEMENT

"This election is more or less political gain for the migrants. This was not thought through. Housing, taxes, money that we are giving out to them, but not taking care of our own crisis with people that have been in the shelter. There needs to be a better way if we can take care of our own. How the hell is it okay to spend our wealth on other countries? On top of it comes with a lot of crime, killing, and so often that we had enough in our own community that we had the audacity to bring in more. It's time for them to go back and reinstate them through the right channels. The channels are coming in waiting to be a citizen for five years etc., etc. and having to bring back to the communities the life and help which we so desperately need."

## INFLATION/ECONOMY

"With the up and coming taxes and failure to help the people with housing, it looks like we are turning into a third world country."

## ILLEGAL IMMIGRATION

"The city has shelter for migrants, but all the shelters are not open to New Yorkers here. Why must we embark on their lives with our tax payer dollars. Sanctuary to bring drugs and killers taking over abandoned housing with their gangs, guns, and other hidden things. Who do we give thanks for our hospitality?"

"New York State continues to become unaffordable for families across the state. Actions need to be taken on the federal level to address inflation and actions need to be taken on the state level to incentivize young families to raise their families in New York."

## ILLEGAL IMMIGRATION

"As the son of immigrants who came here for the American Dream, I appreciate the fact that our nation was built by immigrants that came here for a better life. However, the policies set forth by our city and state, coupled with the 'open border' policy of the federal government, have caused a disastrous and dangerous situation for our communities."

## CRIME

"Crime continues to rise because our laws do not hold criminals accountable for their actions. Our criminal justice system has become a revolving door. As a former prosecutor and member of the Assembly, I have advocated for changes to our criminal justice system so that individuals are held accountable and our residents feel safe."

## CANDIDATE STATEMENT

"Our society has turned into a dystopic state. The good guys are the bad guys, and the bad guys are the good guys. Our neighborhoods are not safe. The border is wide open. We are supporting everyone but our own needy. Many of our folks are 1 paycheck away from being underwater, inflation is out of control. The schools indoctrinate our kids. The kids are not getting a fair education based on merit. Small homeowners are being harmed by squatters, and ripped off by the city and state. Far left ideology has met with reality. It's time to vote! Vote for the people who will carry your voice. Don't just vote for me, vote for you, vote for your kids, vote for your loved ones, vote for your friends and neighbors. Let's take back NY!"

## INFLATION/ECONOMY

"Stop wasteful spending so we can help our people, our needy, our veterans who are down on their luck, our own homeless, our homeowners, our small business owners. Lower taxes!"

## ILLEGAL IMMIGRATION

"I'm a real immigrant. But why do I have to say 'real immigrant'? My wife has a brother and 2 sisters waiting 13 years for an immigration visa. Why doesn't she tell them to fly to Mexico and just walk in? Because we abide by the law. And are penalized for it. We can't take care of every other country's problems. We have enough problems of our own. Why do we import more problems? It doesn't make sense to me."

# SENATE DISTRICT 22

# SIMCHA FELDER

STATE SENATE DISTRICT 22

REPUBLICAN | CONSERVATIVE | DEMOCRAT

"In another decisive victory, Simcha Felder was re-elected to the NYS Senate in November 2022 to represent the 22nd Senatorial District encompassing the Brooklyn neighborhoods of Borough Park, Midwood, Madison, Marine Park, Gravesend, Homecrest, Gerritsen Beach & Sheepshead Bay. He represented the 17th S.D. in the NYS Senate since 2013.

"A lifelong New Yorker, Simcha lives with his wife and children just blocks from the house in which he was born and raised. Simcha is a Certified Public Accountant and holds a Master of Business Administration in Management from the renowned Zicklin School of Business at CUNY's Baruch College. Felder has served as a professor of Management at Touro College and CUNY'S Brooklyn College.

"Felder was a tireless community leader and volunteer for local civic organizations before he was elected to the New York City Council where he served from 2002 to 2010. Felder has also served as Deputy Comptroller for Budget, Accounting, Administration, and Information Technology in the New York City Comptroller's Office, and previously worked for the New York State Assembly and as a tax auditor for the New York City Department of Finance.

"Simcha has built a solid reputation as a dedicated public servant who brings concrete results home to his constituents. An outspoken advocate for responsible neighborhood development, Simcha worked to transform empty city-owned lots for community uses such as new housing and a Hatzolah Volunteer Ambulance garage and headquarters. He has secured more funding for NYC Parks than any other elected official to add new playgrounds, renovate schoolyards and open them for public use, and plant thousands of new trees on city streets. Most recently, he secured a \$10 Million grant to build Brooklyn's first and NYC's finest Playground for All Children at Kelly Park.

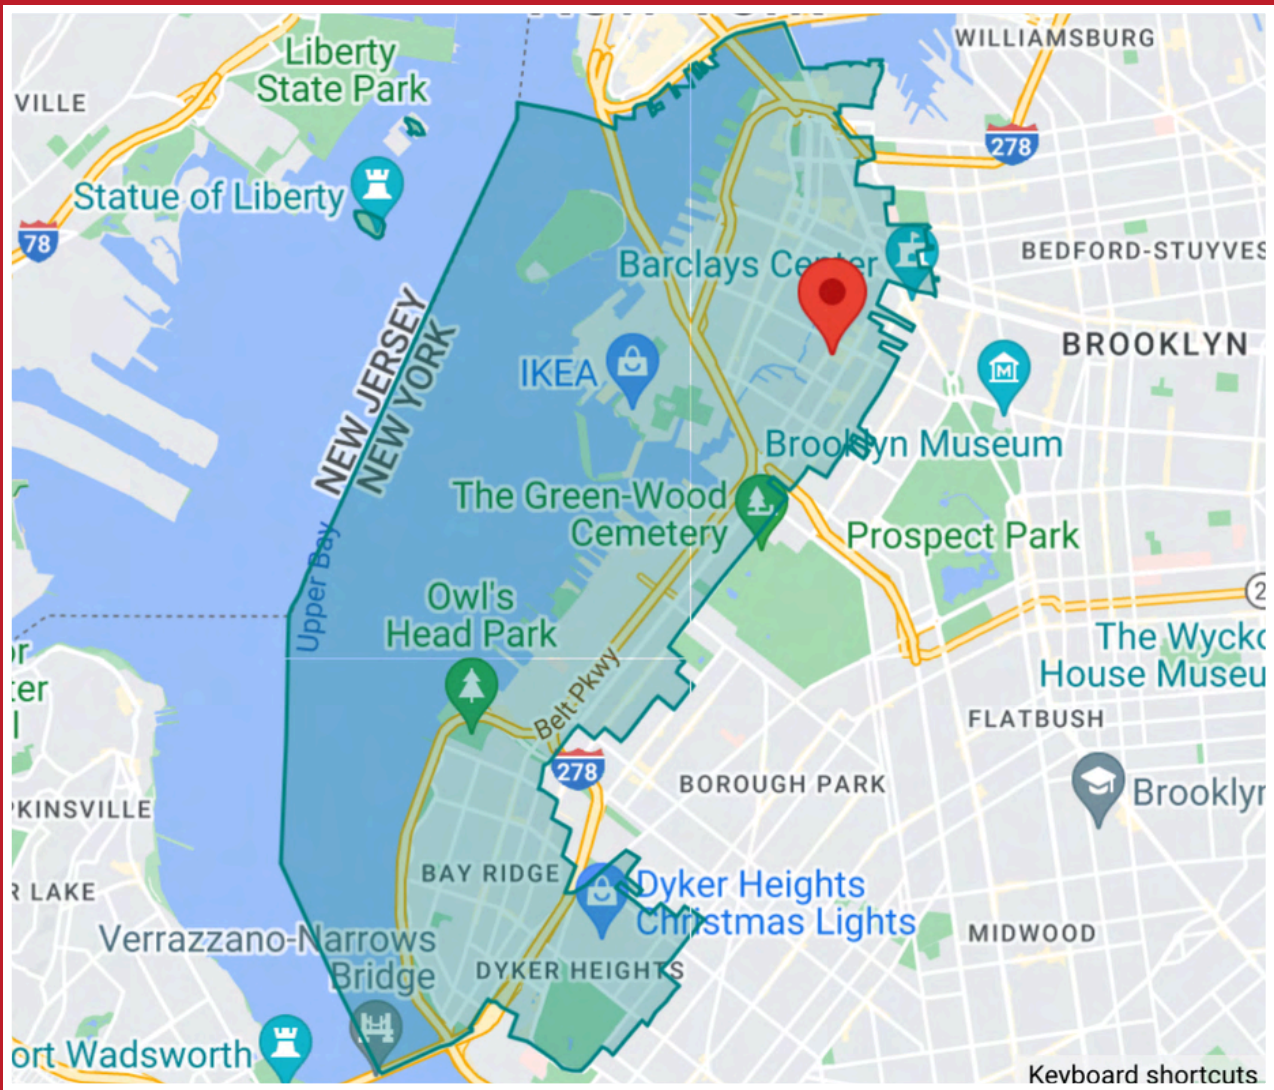

"As Senator, Felder supported efforts to improve New York City schools through direct control and equitable funding. Simcha is a staunch advocate of school choice and maintains that the State must do more to ensure that all New York City students are treated equitably. In 2013, Felder successfully fought to secure funding for school transportation, enabling parents to receive fully-funded, "safety first," school bus services for their school children. Senator Felder is a staunch advocate for families of children with special needs, fighting endlessly to ensure every child receives the education they are guaranteed by federal law.

"Simcha has a proven record as a champion of common-sense policies that streamline government and increase accountability to taxpayers. He passed laws to reduce unfair parking and sanitation tickets, sponsored the five-minute grace period legislation for motorists, and put a stop to the distribution of unwanted circulars and menus.

"Felder seeks to continue his decades-long record as a legislator who breaks down needless and frustrating bureaucratic red tape and makes government more responsive to the needs of its citizens."

## TOP THREE ISSUES

1. Public Safety & Crime Prevention
2. Compassionately Addressing the Migrant Crisis
3. Ensuring Effective Governance with Integrity, Transparency, & Accountability through Bipartisan Cooperation

## CANDIDATE STATEMENT

"I was born and raised in Bay Ridge, worked as an NYPD Officer for 32 years, and am a 9/11 First Responder. As an NYPD Lieutenant, I addressed Quality of Life violations, and enforced policies that made NYC's streets and subways safe. As an Integrity Control Officer, I ensured that subordinate officers complied with all Dept policies and directives. I have a long record of public service in the community, which began in high school when I spent my summer working with children with disabilities. I'm also an actor and have worked in Off-Off Broadway theaters throughout the city, including the Gallery Players in Park Slope. I used my police and acting skills to develop programs to address sexual harassment and diversity in the workplace. I've fought for LGBTQIA+ rights, including advocating for the right for all couples to marry whomever they please. I was a twice-elected parent representative on the District 20 Community Education Council. My wife Kim and I have raised all three of our children next door from the house where I grew up. They all attended public schools in Dyker Heights and Fort Greene."

## INFLATION/ECONOMY

"We need to reduce the regulatory burden on small businesses and ensure they have access to affordable capital so they can grow and create jobs. I will advocate for targeted tax relief and incentives to help our local businesses stay competitive."

## ILLEGAL IMMIGRATION

"We need to roll back Sanctuary City policies. Ensure the health & education needs of migrant children are met. Allow the police to cooperate with ICE for violent offenders."

## CRIME

"The impetus for Bail Reform (a teenager who spent two years at Rikers for a non-violent crime that was eventually dropped, and who upon his release, killed himself) was compelling. However, the law desperately needs to be amended. New York is the only state where a judge can't consider the defendant's dangerousness, arrest, and recidivist history when determining pre-trial detention. That needs to change so that individuals can't keep preying upon New Yorkers."

"I chose to run for Senate this year because the far-left wing of the Democrat (DSA) and Working Families parties overwhelmingly influence my opponent to the exclusion of more moderate voices. He signed off on a District that combined the most conservative neighborhoods in Brooklyn with the most liberal and then turned his back on the people, even elected officials in his own party, who were not as progressive as him. I promise to listen to everybody, try to promulgate policies and propose legislation based on pragmatic solutions and common sense. Problem-solving doesn't come from sticking rigidly to partisan lines but from finding what truly works. I'm committed to building bridges, not walls, and to finding solutions that benefit everyone, regardless of political affiliation. My campaign slogan is 'Problem-solving with respect and empathy for all.' I've done that my whole life and will continue to do so as the State Senator in the 26th District."

## TOP THREE ISSUES

1. The Border
2. Crime
3. Social Security

## CANDIDATE STATEMENT

"I have an extensive career in public service as a Police Officer, Firefighter, Fire Marshal and member of my community school board. Currently, New York and America are on a downward spiral. Our borders are being overrun. Our city is inundated with shelters. Our buses, trains and streets are filled with the homeless. Crime is on the rise and our quality of life is on the decline. Our elected officials want to tax us further with additional speed cameras as well as the disastrous congestion pricing. Social Security is hemorrhaging money and will be bankrupt in 10 years if not properly funded. 'Common sense' is no longer the standard of our thinking or democracy. Let's stop this madness."

## INFLATION/ECONOMY

"Focus on our infrastructure as a means of creating well paying jobs in order to pay our bills. Maintain, renovate and construct new roads, rails, bridges and tunnels."

## ILLEGAL IMMIGRATION

"Repeal the Sanctuary city law, secure both borders, add more border agents, judges, courts and deport where necessary."

## CRIME

"Back to the 'broken window' theory of policing by focusing on the small crimes in order to prevent a basis for major crimes. Bring back to true meaning of community policing by bring back the 'beat cop' to build bridges of communication and cooperation. Combat 'gun violence' by imposing a one year mandatory sentence in a federal prison for each illegal gun brought into New York."

## CANDIDATE STATEMENT

"Elections have consequences. If we do not go out and vote, then the media and unscrupulous characters that control the media, will install those with special interests into office, thereby preventing government from running properly."

## INFLATION/ECONOMY

"Our economy is in the dour straits. Unfortunately, since Biden took office, a trip to the grocery store is not a pleasurable experience. For example, eggs, which used to be considered a staple in the average man's diet, under President Trump, cost 99 cents a dozen, now cost upwards of 5 dollars a dozen. Gas under 2 dollars a gallon. Now if you find it at under 3, (in most states) you are lucky."

## ILLEGAL IMMIGRATION

"This country's greatest strength is the diversity and immigrants who made this country great. But if it is not legal immigration, we are breaking the laws. Without laws to guide us, this can not be a great nation."

## TOP THREE ISSUES

- 1) Public Safety
- 2) Border Control
- 3) Political Division of our Country

## CANDIDATE STATEMENT

"Our national politics are broken. Bizarre political theories have replaced common sense, and corruption takes the place of authentic leadership. Crime and prices are rising. We've never been more divided, even as we suffer together and agree on more basic values than either party or their accomplices want us to realize. It's time for some New York common sense. A candidate who cares about the country and our neighborhoods. Someone who puts us first. I'm Paul Briscoe. I never expected to be a politician, but I never thought things could get this bad. Washington professionals, with all their skills and experience have brought us here. I can't help but think that my honest attempt to do the best for the people, would be better. I'm running to represent you and all of us here in the 10th district. After all we've been through, let's take one small step toward sanity."

## INFLATION/ECONOMY

"Prices have increased more than 20% since the start of the Biden- Harris Administration. Government spending is out of control driving prices and interest rates higher. I will work to reign in government spending and return economic control to the hands of the working people of this country."

## ILLEGAL IMMIGRATION

"We are a country of laws. Immigrants are the backbone of America, but they must arrive legally. Extreme politics have flooded our country with people who now take resources meant for Americans, and take illegal jobs at lower wages that make it hard for our poor and middle class working people to put food on the table. More craziness."

## CRIME

"Crime is not down. It's the standards of how a crime is reported that has changed. When politicians pander to extreme ideologies, they make stupid choices like letting criminals out without bail, defunding the police, and even failing to prosecute some crimes at all. They do this in the name of helping the poor and minorities, but the poor and minorities are the biggest victims of crime. It's time for common sense!"

The Biden-Harris administration's failed policies have only worsened these problems, letting our city and country slip further into chaos. It's time to fight back against this far-left agenda. Choose leadership that prioritizes safety and economic stability. This election is about taking back our city and securing a brighter future for all New Yorkers. Vote for a stronger, safer New York."

## INFLATION/ECONOMY

"As a member of the Ways and Means Committee, I am committed to fighting for the American people by addressing the pressing issue of inflation and its impact on our daily lives. By advocating for responsible fiscal policies, lower taxes, and reduced regulations, I aim to ease the financial burden on families and support economic growth. My work on the committee is focused on crafting solutions that bolster our economy and ensure a brighter, more stable future for all Americans."

## ILLEGAL IMMIGRATION

"As the daughter of a Greek and Cuban immigrant, I hold an appreciation for the vital role that legal immigrants play in our country. Securing our borders and enforcing immigration laws are crucial for protecting our communities and ensuring national safety. I am committed to bolstering border security and supporting law enforcement efforts to address illegal immigration and its impact on our neighborhoods."

# LETTER FROM THE EDITOR

"The Republican & Conservative Voter Guide is meant to be an improvement on what is normally offered to voters by highlighting the real issues that affect New Yorkers most, while giving candidates from 'the other side' a presence in media they normally never get. The guide is a testament to the hard work that our team has put in, combined with that of the willingness and gratitude of all the candidates in their participation of this work. As a former candidate, I know the hard work and effort it takes to run. The people have grown apathetic to voting, and many don't even know who is on their ballot until the day of. For those especially concerned with the more important issues that New York currently faces, this guide is for them. With that being said, I would like to thank the candidates and the contributors for their hard work in making this possible. It is my hope that, with this guide, they may be able to spread their message farther than ever before."
